ALLOWANCE

The following is an examiner's statement of reasons for allowance:

The prior art made of record fails to explicitly disclose an optical flip-flop comprising a laser equipped with a waveguide being equipped with a multi-mode interference portion having input ports and output ports; wherein the multi-mode interference portion oscillates in response to the set and reset pulse inputted into the multi-mode interference portion. The closest prior art of Ho does not clearly state or reasonably suggest the oscillation in the multi-mode interference portion oscillates in response to the input of a set pulse and reset pulse inputted from one of the input ports. Therefore claims 1 and 10 are allowed. Claims 2-9 and 11-17 are allowed by virtue of dependency.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
